FRIC MARCON

Currently lecturer and researcher with AgroParisTech, PhD.

I am a researcher in Tropical Ecology with Amap lab, a professor at AgroParisTech and a coordinator of the BioGET course of the Biodiversity, Ecology and Evolution master's degree at AgroParisTech and Montpellier University.

I'm the director of training with Ceba Excellence Laboratory (Centre d'Etudes de la Biodiversité Amazonienne), a member of the Scientific Council of the French Office for Biodiversity and a member of the domain committee Sustainable management of Natural Resources - Biodiversity of the French Ministry of Ecology.

I am 57 years old and I live in Montpellier, France.

Présent 2020

Lecturer-researcher in charge of a master's programme AgroParisTech, Amap lab. Montpellier, France

2020

Campus director with AgroParisTech AgroParisTech

Nourou, French Guiana

2006 2006

2002

Educational engineer

Ecole Nationale du Génie Rural, des Eaux et des Forêts (postgraduate, environment engineering and public administration school, now merged with AgroParisTech)

Kourou. French Guiana

2002 1999

Head of IT at Cemagref General Management

Research Institute for Agricultural and Environmental Engineering (now merged with Inrae: National Research Institute for Agriculture, Food and Environment)

Antony, France

1997 1995 **Head of IT at Engref General Management**

Ecole Nationale du Génie Rural, des Eaux et des Forêts

Paris. France

1995 1991 Forest engineer

Head of Division with the National Forest Office

♀ Charleville-Mézières, France

EDUCATION

2016

University of French Guiana

Habilitation à Diriger des Recherches (French qualification to supervise research) in Ecology

♥ Kourou, French Guiana

Thesis: Measuring biodiversity and spatial structures (in French)

SKILLS

Experienced in management, research, teaching, forestry and IT.

Skilled in ecology, economics, forest science, statistics, data analysis and modelling.

Highly skilled in R.

LANGUAGE

French: mother tongue (C2) English: fluent (C1) Italian: advanced (B2) Portuguese: advanced (B1) Spanish: operational (A2)

2010	•	AgroParisTech PhD in Ecology	
		Thesis: Spatial statistics with applications to ecology and economics (in French)	
1999	•	Ecole Nationale du Génie Rural, des Eaux et des Forêts Post-Graduate Engineering School of Public Administration ◆ Paris, France	
1999		University of Paris, Panthéon Sorbonne MSc in International Economic ♥ Paris, france	
		Thesis: The international timber trade (in French)	
1990	•	Ecole Nationale des Ingénieurs des Travaux des Eaux et Forêts	
		Graduate Engineering School of Forestry ◆ Nogent sur Vernisson, France	
	-	RESEARCH EXPERIENCE	
Present 2020		Researcher in Tropical Ecology Associate researcher at AMAP lab.	▲ Amap Lab
2020 2006	•	Head of Research Unit Ecology of Guiana Forests AgroParisTech ♥ Kourou, French Guiana • Deputy director from 2006 to 2009 and director from 2010.	
	_		
		TEACHING EXPERIENCE	•
Present		Biodiversity, Ecology and Evolution, BioGET master's programme	
2020		AgroParisTech and University of Montpellier Montpellier, France I coordinate the Plant Biodiversity and Management of Tropical Ecosystems (BioGET) programme, which is co-organised by the University of Montpellier and AgroParisTech.	
Present	•	AgroParisTech final year	⋒ Geeft MSc
2022		AgroParisTech I teach tropical forest ecology, epistemology in ecology and statistics with R to final-year, graduate engineering students in the Environmental Management of Tropical Ecosystems and Forests major.	
Present	•	Biodiversity, Ecology and Evolution, EFT master's	≘ EFT MSc
2010		AgroParisTech and University of French Guiana	★ Tropimundo MSc
		I teach biodiversity measurement and species abundance distributions to Master 2 students in the Ecology of Tropical Forests programme. This course receives students from the Erasmus Mundus Tropimundo Master's, coordinated by the Free University of Brussels.	

Erasmus Mundus Global Forestry master's programme

University of Copenhagen

◆ Copenhagen, Denmark

I teach tropical forest ecology and sustainable forest management in the Erasmus Mundus Global Forestry Master 1 programme, coordinated by the University of Copenhagen.

PUBLICATIONS

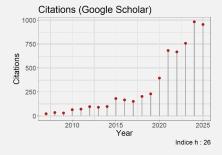

Present | 2012

Measurement of Biodiversity

I wrote a series of papers to contribute to the development of methods to measure diversity rigorously, including an R package and a book.

- Marcon, E., Mirabel, A., Molino, J.-F., Sabatier, D. (2024). Estimation of the number of tree species in French Guiana by extrapolation of permanent plots richness. *Journal of Tropical Ecology*, 40, e11.
- Grabchak, M., Marcon, E., Lang, G., & Zhang, Z. (2017). The generalized Simpson's entropy is a measure of biodiversity. *Plos One*, 12, e0173305.
- Buckland, S. T., Yuan, Y., & Marcon, E. (2017). Measuring temporal trends in biodiversity. AStA Advances in Statistical Analysis, 101, 461-474
- Pavoine, S., Marcon, E., & Ricotta, C. (2016). 'Equivalent numbers' for species, phylogenetic or functional diversity in a nested hierarchy of multiple scales. *Methods in Ecology and Evolution*, 7(10), 1152-1163.
- Marcon, E., & Hérault, B. (2015). Decomposing phylodiversity. Methods in Ecology and Evolution, 6, 333-339.
- Marcon, E., & Hérault, B. (2015). entropart, an R package to measure and partition diversity. Journal of Statistical Software, 67, 1-26.
- Marcon, E., Scotti, I., Hérault, B., Rossi, V., & Lang, G. (2014).
 Generalization of the partitioning of Shannon diversity. *Plos One*, 9, e90289.
- Marcon, E., Hérault, B., Baraloto, C., & Lang, G. (2012). The decomposition of Shannon's entropy and a confidence interval for beta diversity. Oikos, 121, 516-522.

m Global Forestry MSc

Characterization of spatial patterns

I co-authored with Florence Puech a series of papers in the field of spatial microeconometrics. An R package is available.

- Marcon, E., & Puech, F. (2023). Mapping distributions in non-homogeneous space with distance-based methods. *Journal of Spatial Econometrics*. 4, 13.
- Lang, G., Marcon, E., & Puech, F. (2020). Distance-based measures of spatial concentration: Introducing a relative density function. *The Annals* of Regional Science, 64, 243-265.
- Marcon, E. (2019). Mesure de la biodiversité et de la structuration spatiale de l'activité économique par l'entropie. Revue Économique, 70(3), 305-326. English translation.
- Marcon, E., & Puech, F. (2017). A typology of distance-based measures of spatial concentration. Regional Science and Urban Economics, 62, 56-67.
- Marcon, E., Traissac, S., Puech, F., & Lang, G. (2015). Tools to characterize point patterns: dbmss for R. Journal of Statistical Software, 67, 1-15.
- Marcon, E., Traissac, S., & Lang, G. (2013). A statistical test for Ripley's function rejection of poisson null hypothesis. *ISRN Ecology*, Article ID 753475.
- Lang, G., & Marcon, E. (2013). Testing randomness of spatial point patterns with the Ripley statistic. ESAIM: Probability and Statistics, 17, 767-788
- Marcon, E., Puech, F., & Traissac, S. (2012). Characterizing the relative spatial structure of point patterns. *International Journal of Ecology*, Article ID 619281.

SOFTWARE DEVELOPMENT

2015

entropart

entropart is an R package that provides functions to calculate alpha, beta and gamma diversity of communities, including phylogenetic and functional diversity. Estimation-bias corrections are available.

2015

dbmss is an R package for simple computation of spatial statistic functions of distance to characterize the spatial structures of mapped objects, including classical ones (Ripley's K and others) and more recent ones used by spatial economists (Duranton and Overman's K_d , Marcon and Puech's M). It relies on spatstat for some core calculation.

2021

Templates to publish well-formatted and reproducible documents both in HTML and PDF formats.
